

David Carter

Hi Dave,

are you coming to this meeting? Dean can't come and I may not be able to come early enough too. Klaus

A.C.T. HERPETOLOGICAL ASSOCIATION

Next meeting is on THURSDAY FEBRUARY 25th, 1988
beginning as usual at 7.30 (business) then 8.00 (talks)

Our main talk is by Ron Denzio on

CAPTIVE MAINTENANCE OF REPTILES

We have two shorter, informal talks by Paul Scanlon & Ross Bennett in what is the first of a practise we hope to adopt. Members will give a short talk about any herp news, ideas advice observations etc to the other members.

Rick Longmore asked me to pass on his apologies for having to cancel the 'Tymanocryptis' field trip, but he has no control of the weather. It has to be re-scheduled perhaps for SUNDAY MARCH 6, 1988.

WHAT DO YOU GET IF YOU PUT ALCOHOL IN A BLUE TONGUE'S WATER DISH? QWAZI7 SSE7937 A

Finally, the newsletters will only get better when people begin to submit items to be included. If you can't be bothered to write for half an hour, I am not keen to write a large newsletter by myself.
