

Bring along Amphibian Checklist

A.C.T. HERPETOLOGICAL ASSOCIATION

Atlas of Elapid Snakes of Australia

The last meeting of the ACT Herpetological Association was very well attended. This would have pleased Rick after last years aborted effort! Thanks to Rick Longmore for presenting his talk on the now completed elapid atlas. Thankyou also to those members who brought along a few snakes (including a non-elapid) and thus added further interest to the meeting.

NEXT MEETING

The time slot for the next meeting has been difficult to arrange. We have decided to hold the meeting and talk on the first Wednesday of October (1-10-86). *17 people*

The talk at the next meeting will be given by David Carter of the Australian National Parks and Wildlife Service. His topic is "The sea turtles of Bramble Cay". The talk will relate some of David's experiences whilst working with Applied Ecology in Queensland.

90-98% hatch rate Delonia mydas

Meeting time: 7.30 pm Department of Zoology downstairs meeting room Wednesday 1 October.

average clutch 80-100 eggs

*Jervis Bay - Camping only available for last weekend in Nov.
Mike brought to try + book a site for camping*

*Hi Rick
sorry I missed last meeting. From what Klaus passed on to me it seems to have gone well. That is pleasing*

cheers Will
